CIRCULAR S.4A
1000—1960—2826

READING LIST

SENIOR DIVISION

GRADES 11, 12 and 13

ISSUED BY AUTHORITY OF
THE MINISTER OF EDUCATION

PREFACE

The book list provided in this circular was prepared at the request of the Department of Education by a committee of teachers and librarians. The expert knowledge and experience of the compilers has enabled them to make their choice from books for supplementary reading which have proved valuable and acceptable in school libraries and which have been found interesting by pupils of senior secondary school grades. The list replaces that contained in Circular S.4A. which was distributed to schools in 1953.

No school library is likely to have all the books listed here, nor is it intended that any school should acquire them all. The choice of books rests with the school. The list may serve as a guide to school librarians who have to choose books to expand or modernize their collections and who have to decide what editions of standard works to purchase.

It is the hope of the committee that the brief notes which are supplied will give some indication of the nature or content of the books and that they will attract pupils to good reading. This pamphlet will best serve this purpose if copies are made readily available to pupils in the school libraries.

All books added to this edition can be identified by the date. Out-of-print titles, included in the earlier edition, are not listed here, but, if they are on the school library shelves, should be considered as belonging to this list.

Prices of books are included for the editions recommended for library use. These are subject to change but they should serve as guides in ordinary books where more than one edition is available.
